

### Treatment

works best and is more meaningful when the issues dealt with are specific to the life stage of the individual.

The D. Bruce Mansfield Center specializes in the confidential treatment of adults age 50+ and those with disabilities who face the challenges resulting from the abuse of alcohol and other drugs.

According to the Center for Substance Abuse and Treatment, older adults are more cooperative with treatment and have treatment outcomes as good or better than those of younger patients.

*"I sincerely believe this to be a great program for those like myself who need help of a different kind."*

**Alcohol** and other drug addiction is a chronic disease with devastating effects that can develop at any age. The abuse of alcohol and other drugs diminishes the joy of living. The physical changes of aging decrease the body's ability to tolerate alcohol. Social losses and late-life events can result in feelings of loneliness, boredom and abandonment, which increase an older adult's vulnerability to abuse alcohol or prescription drugs.

Mature Services Inc. is an equal opportunity employer and service provider.
