WHAT CLEANERS TO THE RESCUE DOES

We provide a service to those who need help with indoor or limited outdoor home-cleaning tasks.

We may enable older persons to stay in their own homes, help a person with a disability live independently or organize a household for someone.

We can also be hired to prepare for a move, or to clear out a home following a move to a nursing facility.

We are experienced in working with individuals who are reluctant to allow services into their homes. However, barring a court order, the resident must agree to service.

Respecting the dignity of the client is a high priority in this process.

Let us do the dirty work.

Do you know someone who:

- has been cited by the health department due to a poor living environment?
- is unable to do heavy cleaning or organize their own household?
- is experiencing legal, emotional, mental, or physical discomfort due to the condition of their home?
- needs accumulated clutter removed?

Cleaners to the Rescue is the answer. Finding a service that is safe, reliable and experienced takes any risk out of searching for the services you need in caring for a loved one or solving your own immediate needs.

Who are the cleaners?

The cleaners are experienced, hard-working, dedicated employees of Mature Services, Inc., who consistently deliver high quality, timely service.

All of our cleaners are bonded, have undergone background checks and training, and are supervised. They have years of experience in both cleaning and working with older adults and hard-to-serve clients.
